

Shared Health Foundation Innovation Prize 2016

Introduction

The Shared Health Foundation is passionate about reducing health inequalities in Greater Manchester. SHF also recognises that the best ideas come from those who work in this field week in week out. This is why SHF, supported by the Oglesby Charitable Trust is inviting GPs at grass-roots level to share ideas and innovations that can be developed into projects which help to bridge the gaps for the poorest in our city. This may be something which already works for you in your practice, or is an idea at its early stages which you intend to develop further.

Write 250 words of an innovative project that you want to bring into your GP practice to reduce inequalities.

Describe it, be passionate, tell us what you would do and enter it into the SHF Innovation Prize.

The prize (following assessment) is investment of up to £20,000 to make your project happen.

Think different and good luck!

Thank you

Outline and further guidance:

1. Applicants must be working in primary care in at least one of the Greater Manchester CCG areas and the project directly benefit patients resident in these areas.
2. Applications will be assessed by the Shared Health Foundation and any awards will be at the discretion of SHF.
3. The closing date for applications is Monday 31st October 2016
4. Completed Applications should be sent to jenny.webster@sharedhealth.org.uk
For any further enquiries or information please email jenny.webster@sharedhealth.org.uk

Shared Health Foundation Innovation Prize 2016
